

Privacy Policy

This privacy policy was established on 01-01-2022 (v1.0).

Previn is responsible for the processing of personal data as described in this privacy statement.

Personal data we process

Our website does not intend to collect data about website visitors.

Previn processes your personal data because you use our services and/or because you have provided it to us yourself. Below is an overview of the personal data we process when submitted via our contact form:

- Name
- Address
- Phone number
- E-mail address

Purpose and legal basis for processing personal data

Previn processes your personal data solely for the purpose of providing our services.

Automated decision-making

Previn takes responsibility based on automated processing for decisions about matters that may have consequences for individuals. These are decisions made by computer programs or systems, without a human (such as an employee of Previn) being involved.

Retention period

Previn does not retain your personal data longer than strictly necessary to fulfil the purposes for which your data is collected. We apply a retention period of 5 years.

Sharing personal data with third parties

Previn only shares your personal data with third parties when necessary to perform the agreement or to comply with a legal obligation. We conclude data processing agreements with companies that process your data on our behalf to ensure the same level of security and confidentiality. Previn remains responsible for these processing operations.

Cookies and similar technologies

Previn only uses technical and functional cookies, and analytical cookies that do not infringe on your privacy. A cookie is a small text file stored on your computer, tablet or

smartphone during your first visit to this website. The cookies we use are necessary for the technical functioning of the website and your ease of use. They ensure the website works properly and remember, for example, your preferences. They also allow us to optimise our website. You can opt out of cookies by configuring your internet browser to no longer store them. You can also delete all previously stored information through your browser settings.

Accessing, modifying or deleting your data

You have the right to access, correct or delete your personal data. You also have the right to withdraw your consent for data processing or to object to Previn's processing of your personal data, and you have the right to data portability. This means you can submit a request to us to send the personal data we hold about you in a computer file to you or another organisation you specify.

You can submit a request for access, correction, deletion, data transfer, or withdrawal of consent to: info@previn.nl.

To verify that the request for access is made by you, we ask you to include a copy of your identity document. In this copy, please black out your passport photo, MRZ (machine readable zone), passport number and Citizen Service Number (BSN). This is to protect your privacy. We will respond as soon as possible, and within four weeks.

Previn also wishes to inform you that you have the right to file a complaint with the Dutch Data Protection Authority (Autoriteit Persoonsgegevens) via the following [link](#).

How we secure personal data

Previn takes the protection of your personal data seriously and takes appropriate measures to prevent misuse, loss, unauthorised access, unwanted disclosure and unauthorised modification. If you believe your data is not properly secured or there are indications of misuse, please contact us at info@previn.nl. Previn has implemented the following measures to secure your personal data:

- TLS (formerly SSL). We transmit your data over a secure internet connection. You can see this from 'https' in the address bar and the padlock icon.
- DKIM, SPF and DMARC are three internet standards we use to prevent you from receiving emails sent in our name that contain viruses, are spam, or are intended to obtain personal (login) data.
- DNSSEC is an additional security measure (supplementary to DNS) for converting the domain name previn.nl to its associated IP address; it is provided with a digital signature that can be verified automatically, preventing you from being redirected to a false IP address.
